Rule 138

**Patrick Breyer** (Verts/ALE)

Subject: European health data space: the right to object to cross-border access to and exchange of personal electronic health data

Under the provisional agreement on the proposal for a European Health Data Space regulation (COM(2022)0197), will Member States' laws be able to provide for natural persons to have the right to object to their personal electronic health data being made available for cross-border access and exchange, while not objecting to national access and exchange?
