§ 4

- First part 'Stresses that keeping the long-term goal of the Paris Agreement within reach requires collective effort and further action from all countries involved; urges all parties to the UN Framework Convention on Climate Change, including the EU, to follow up on the global efforts agreed in the global stocktake decision through the ambitious implementation and scaling-up of nationally determined contributions in line with the long-term goal of the Paris Agreement;'
- Second part 'recalls that the EU, in accordance with the European Climate Law, must continue its efforts on climate mitigation to reach this long-term goal, and on adaptation to foster resilience;'

§ 21

- First part 'Highlights, in this regard, the need for further urgent investment in flood management and risk prevention measures, including improved early warning systems, real-time monitoring systems, flood management infrastructure'
- Second part 'and nature-based solutions, and long-term investments in green and blue infrastructure, such as giving streams and rivers more space by restoring natural flood plains and old riverbeds, wetlands and forests, and improving water retention by restoring the sponge function of landscapes; calls for any potential synergies to be leveraged between the planning instruments under development by the Member States, for example, natural restoration plans, soil district plans, integrated management plans under the Urban Waste Water Treatment Directive and flood risk management, while avoiding maladaptation;'
