amendment 12

*First part*

‘In order to enhance the economic diversification of territories impacted by the transition, the JTF should provide support to productive investment in SMEs. Productive investment should be understood as investment in fixed capital or immaterial assets of enterprises in view of producing goods and services thereby contributing to gross-capital formation and employment. For enterprises other than SMEs, productive investments should only be supported if they are necessary for mitigating job losses resulting from the transition, by creating or protecting a significant number of jobs and they do not lead to or result from relocation. Investments in existing industrial facilities, including those covered by the Union Emissions Trading System, should be allowed if they contribute to the transition to a climate-neutral economy by 2050 and go substantially below the relevant benchmarks established for free allocation under Directive 2003/87/EC of the European Parliament and of the Council and if they result in the creation and maintenance of a significant number of jobs.’

*Second part*

‘Any such investment should be justified accordingly in the relevant territorial just transition plan, be sustainable and, where applicable, be consistent with the polluter pays principle and the energy efficiency first principle. In order to protect the integrity of the internal market and cohesion policy, support to undertakings should comply with Union State aid rules as set out in Articles 107 and 108 TFEU.’

amendment 38

*First part*

‘Additionally, the JTF may support, in less developed and transition regions as set out in Article 102(2) of Regulation No .../... [new CPR], productive investments in enterprises other than SMEs, provided that such investments have been approved as part of the territorial just transition plan based on the information required under point (h) of Article 7(2).’

*Second part*

‘Such investments shall only be eligible where they are necessary for the implementation of the territorial just transition plan, to create new jobs, and where they comply with social targets for job creation, gender equality and equal pay and environmental targets, and where they facilitate transition to a climate-neutral economy without supporting relocation, in compliance with Article 60(1) of Regulation No .../... § 55

*First part* 'Recalls that, in accordance with the Charter, the ECHR and the case law of the European Court of Human Rights, women's sexual and reproductive health is related to multiple human rights, including the right to life and dignity, freedom from inhuman and degrading treatment, the right of access to health care, the right to privacy, the right to education and the prohibition of discrimination, as is also reflected in the Polish Constitution;'

*Second part* 'recalls that Parliament strongly criticised, in its resolution of 15 November 2017, any legislative proposal that would prohibit abortion in cases of severe or fatal foetal impairment, thereby drastically limiting and coming close to banning in practice access to abortion care in Poland as most legal abortions are performed under that ground, and emphasised that universal access to healthcare, including sexual and reproductive healthcare and the associated rights, is a fundamental human right; regrets the proposed amendments to the Act of 5 December 1996 on doctors' and dentists' professions, under which doctors would no longer be legally obliged to indicate an alternative facility or practitioner in case of denial of sexual and reproductive health services due to personal beliefs;'

*Third part* 'is concerned about the use of the conscience clause including the absence of reliable referral mechanisms and lack of timely appeals for women who are denied such services; calls on the Polish parliament to refrain from any further attempts to restrict women's sexual and reproductive health'

§ 56

*First part* 'Recalls that previous attempts to further limit the right to abortion, which in Poland is already among the most restricted in the Union, were halted in 2016 and 2018 as a result of mass opposition from Polish citizens as expressed in the 'Black Marches';'

*Second part* 'strongly invites the Polish authorities to consider repealing the law limiting women's and girls' access to the emergency contraceptive pill;'
