Forest fires in the summer of 2009

Joint motion for a resolution

Paragraph 11 a (new)

Joint motion for a resolution

Amendment

11a. Deeply regrets the fact that so many and such heavy losses have occurred during the fires in certain EU countries which had been recently hit by fires of similar magnitude; considers it necessary, in consequence, to examine immediately the adequacy of the prevention and preparedness measures in order to ensure that the necessary lessons are drawn with a view to preventing and limiting the devastating effects of similar disasters in EU Member States in the future; in this regard, urges the Commission to ask Member States to supply details of their operational programmes in place for dealing with natural disasters, with a view to exchanging experiences and drawing conclusions on immediate measures, coordination of administrative and operational bodies, and availability of the necessary human resources and material;

Paragraph 27 a (new)

Joint motion for a resolution

Amendment

27a. Calls, therefore, for an integrated EU strategy for the preservation of the southern European forest ecosystems, which will ensure sufficient financing of prevention measures, measures to reverse extended economic and environmental damage, and the full restoration of the ecosystem, as well as allocations for the Adaptation and Mitigation of the South European Forest Ecosystems to Climate Change;

Paragraph 9

Joint motion for a resolution

9. Considers that recent experience and that of past years emphasises the need further to reinforce the Community's civil protection, prevention preparedness and response capability in connection with forest fires and other wildfires in southern Europe, and strongly urges the Commission to take action to this end in order to provide visible expression of European solidarity with countries affected by major emergencies;

Paragraph 9 a (new)

Joint motion for a resolution

Amendment

9a. Calls on the Commission to carry out more research geared to improving forest fire prevention and forest firefighting methods and materials, and to review planning and land use; urges the Member States, therefore, to take strong action to improve and implement their forest protection legislative framework and to abstain from commercialisation, reclassification and privatisation activities, thus limiting intrusion and speculation; considers that all available EU know-how, including satellite systems, should be used to this end;

Paragraph 25 a (new)

Joint motion for a resolution

Amendment

25a. Believes that the procedures for mobilisation of the Solidarity Fund need to be reviewed in order to speed up payment of aid; considers, in particular, that to that end a system of advance payments based on initial estimates of direct damage could be developed, whereby further payments would depend on the definite calculations of total direct damage and evidence of prevention measures taken as a result of the disaster;
