Amendment 4

Jo Leinen

on behalf of the S&D Group

Joint motion for a resolution

PPE, S&D, ALDE, Verts/ALE, ECR, GUE/NGL

Outcome of the Copenhagen Conference Summit on Climate Change (COP 15)

Joint motion for a resolution

Paragraph 7

Joint motion for a resolution

7. Notes the commitment to a USD 100 billion annual fund from developed countries by 2020 and the sum of USD 30 bn for developing countries over the next three years (2010-2012), to help fight climate change and the establishing of a green climate fund to support projects in developing countries related to deforestation and forest degradation;

Amendment

7. Notes the commitment to a USD 100 billion annual fund from developed countries by 2020 and the sum of USD 30 bn for developing countries over the next three years (2010-2012), to help fight climate change and the establishing of a green climate fund to support projects in developing countries related to deforestation and forest degradation;
regrets, however, that the commitment falls short of the Commission's estimation that EUR 100 billion would be raised by 2020;

Paragraph 9

Joint motion for a resolution

9. Emphasises that the upcoming EU budget review needs to focus on providing sufficient resources for measures to protect against, and adapt to, climate change, both within EU and in developing countries; notes also that the review should consider the introduction of new and innovative financial mechanisms to support international climate action;

Paragraph 2

Joint motion for a resolution

2. Considers that delay in finding international agreement is not a justification for postponing further EU policies to achieve reductions that, in view of scientific findings, are known to be necessary; reiterates our commitment to reduce our emissions by 20% by 2020, which is already legally binding, and our desire to move to a 30% reduction; notes also that the initiatives taken within the EU to promote and encourage the green economy, energy security and reduced energy dependency will make it increasingly easy to fulfil a 30% reduction commitment;

Amendment

2. Considers that delay in finding international agreement is not a justification for postponing further EU policies to achieve reductions that, in view of scientific findings, are known to be necessary; reiterates our commitment to reduce our emissions by 20% by 2020, which is already legally binding, and our desire to move to a 30% reduction, ***which the EU reconfirmed to the UN, in compliance with the Copenhagen Accord, on 27 January 2010; calls on the EU to keep up its climate protection ambitions and to consider unilateral reduction commitments at the high end of 25-40% by 2020;*** notes also that the initiatives taken within the EU to promote and encourage the green economy, energy security and reduced energy dependency will make it increasingly easy to fulfil a 30% reduction commitment;

Paragraph 9 a (new)

Joint motion for a resolution

Amendment

9a. Calls for the EU to propose the creation of a 0.01% tax rate on financial transactions, which would bear EUR 20 000 million per annum to help developing countries to fight and adapt to climate change; considers that this should be earmarked for measures to enable developing countries to provide incentives for combating deforestation and land degradation, as well as desertification;
