**European Parliament legislative resolution of 27 April 2017 on the proposal for a Council directive amending Directive (EU) 2016/1164 as regards hybrid mismatches with third countries (COM(2016)0687 – C8-0464/2016 – 2016/0339(CNS))**

#### **(Special legislative procedure – consultation)**

*The European Parliament,*

- having regard to the Commission proposal to the Council (COM(2016)0687),
- having regard to Article 115 of the Treaty on the Functioning of the European Union, pursuant to which the Council consulted Parliament (C8-0464/2016),
- having regard to the reasoned opinions submitted, within the framework of Protocol No 2 on the application of the principles of subsidiarity and proportionality, by the Netherlands Senate, the Netherlands House of Representatives and the Swedish Parliament, asserting that the draft legislative act does not comply with the principle of subsidiarity,
- having regard to the other contributions submitted by the Czech Senate, the German Bundesrat, the Spanish Parliament and the Portuguese Parliament on the draft legislative act,
- having regard to its resolution of 25 November 2015 on tax rulings and other measures similar in nature or effect<sup>1</sup>,
- having regard to its resolution of 16 December 2015 with recommendations to the Commission on bringing transparency, coordination and convergence to corporate tax policies in the Union<sup>2</sup>,
- having regard to its resolution of 6 July 2016 on tax rulings and other measures similar in nature or effect<sup>3</sup>,
- having regard to the Commission's decision of 30 August 2016 on State aid SA.38373 (2014/C) (ex 2014/NN) (ex 2014/CP) implemented by Ireland to Apple, and to the

Commission's open investigations into Luxembourg's alleged aid to McDonald's and Amazon,

- having regard to the ongoing work of its Committee of Inquiry to investigate alleged contraventions and maladministration in the application of Union law in relation to money laundering, tax avoidance and tax evasion,
  - having regard to Rule 78c of its Rules of Procedure,
  - having regard to the report of the Committee on Economic and Monetary Affairs (A8-0134/2017),
1. Approves the Commission proposal as amended;
  2. Calls on the Commission to alter its proposal accordingly, in accordance with Article 293(2) of the Treaty on the Functioning of the European Union;
  3. Calls on the Council to notify Parliament if it intends to depart from the text approved by Parliament;
  4. Asks the Council to consult Parliament again if it intends to substantially amend the Commission proposal;
  5. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

#### **Amendment 1**

##### **Proposal for a directive**

##### **Recital 4**

*Text proposed by the Commission*

(4) Directive (EU) 2016/1164 provides for a framework to tackle hybrid mismatch arrangements.

*Amendment*

(4) Directive (EU) 2016/1164 provides for a ***first*** framework to tackle hybrid mismatch arrangements, ***which does not comprehensively and systematically eliminate hybrid mismatches and the scope of which is limited to the Union.***

#### **Amendment 2**

##### **Proposal for a directive**

##### **Recital 4 a (new)**

*Text proposed by the Commission*

*Amendment*

***(4a) Underlying the BEPS initiative is also the declaration of G20 leaders at their meeting in Saint Petersburg on 5-6 September 2013, expressing their wish to***

*ensure that profits are taxed where economic activities deriving the profits are performed and where value is created. In practice, that would have required the introduction of unitary taxation with formulary apportionment of tax revenues to states. That goal has not been achieved.*

### **Amendment 3**

#### **Proposal for a directive**

##### **Recital 5**

*Text proposed by the Commission*

(5) It is *necessary* to establish rules that neutralise hybrid mismatches in a comprehensive manner. Considering that Directive (EU) 2016/1164 only covers hybrid mismatch arrangements that arise in the interaction between the corporate tax systems of Member States, the ECOFIN Council issued a statement on 20 June 2016 requesting the Commission to put forward by October 2016 a proposal on hybrid mismatches involving third countries in order to provide for rules consistent with and no less effective than the rules recommended by the OECD BEPS report on Action 2, with a view to reaching an agreement by the end of 2016.

*Amendment*

(5) It is *of great importance* to establish rules that neutralise hybrid mismatches *and branch mismatches* in a comprehensive manner. Considering that Directive (EU) 2016/1164 only covers hybrid mismatch arrangements that arise in the interaction between the corporate tax systems of Member States, the ECOFIN Council issued a statement on 20 June 2016 requesting the Commission to put forward by October 2016 a proposal on hybrid mismatches involving third countries in order to provide for rules consistent with and no less effective than the rules recommended by the OECD BEPS report on Action 2, with a view to reaching an agreement by the end of 2016.

### **Amendment 4**

#### **Proposal for a directive**

##### **Recital 5 a (new)**

*Text proposed by the Commission*

*Amendment*

*(5a) The effects of hybrid mismatch arrangements should also be considered from the viewpoint of developing countries, and the Union and its Member States should aim to support developing countries in tackling such effects.*

## Amendment 5

### Proposal for a directive Recital 6

#### *Text proposed by the Commission*

(6) Considering that[, amongst others, it is stated in Recital (13) of Directive (EU) 2016/1164 that] it is critical that further work is undertaken on other hybrid mismatches such as those involving permanent establishments, it is essential that hybrid permanent establishment mismatches are addressed in *that* Directive as well.

#### *Amendment*

(6) Considering that[, amongst others, it is stated in Recital (13) of Directive (EU) 2016/1164 that] it is critical that further work is undertaken on other hybrid mismatches such as those involving permanent establishments, ***including disregarded permanent establishments***, it is essential that hybrid permanent establishment mismatches are addressed in Directive (EU) 2016/1164 as well. ***In addressing such mismatches, regard should be had to the recommended rules included in the OECD's Public Discussion Draft of 22 August 2016 concerning BEPS Action 2 - Branch Mismatch Structures.***

## Amendment 6

### Proposal for a directive Recital 7

#### *Text proposed by the Commission*

(7) In order to provide for a ***comprehensive*** framework consistent with ***to*** OECD BEPS report on hybrid mismatch arrangements it is essential that Directive (EU) 2016/1164 would also include rules on hybrid transfers, imported mismatches and ***dual resident mismatches***, in order to prevent taxpayers from exploiting remaining loopholes.

#### *Amendment*

(7) In order to provide for a framework ***that is*** consistent with, ***and no less effective than, the*** OECD BEPS report on hybrid mismatch arrangements, it is essential that Directive (EU) 2016/1164 would also include rules on hybrid transfers ***and*** imported mismatches and ***addresses the full range of double deduction outcomes***, in order to prevent taxpayers from exploiting remaining loopholes. ***Those rules should be standardised and coordinated to the maximum extent possible between Member States. Member States should consider the introduction of penalties against taxpayers that exploit hybrid mismatches.***

## Amendment 7

### Proposal for a directive Recital 7 a (new)

*Text proposed by the Commission*

*Amendment*

***(7a) Rules need to be laid down in order to put a stop to the use of different tax accounting periods in individual jurisdictions, which results in mismatches in tax outcomes. Member States should ensure that taxpayers declare payments in all jurisdictions involved within a reasonable period of time. The national authorities should, furthermore, look into all the reasons behind hybrid mismatches and should close any loopholes and prevent aggressive tax planning, rather than focusing solely on collecting tax revenue.***

## Amendment 8

### Proposal for a directive Recital 8

*Text proposed by the Commission*

*Amendment*

(8) Given that Directive (EU) 2016/1164 includes rules on hybrid mismatches between Member States, it is appropriate to include rules on hybrid mismatches with third countries in that Directive. Consequently, those rules should apply to all taxpayers that are subject to corporate tax in a Member State including permanent establishments of entities resident in third countries. It is necessary to cover all hybrid ***mismatch*** arrangements where at least one of the parties involved is a corporate taxpayer in a Member State.

(8) Given that Directive (EU) 2016/1164 includes rules on hybrid mismatches between Member States, it is appropriate to include rules on hybrid mismatches with third countries in that Directive. Consequently, those rules should apply to all taxpayers that are subject to corporate tax in a Member State including permanent establishments of entities resident in third countries. It is necessary to cover all hybrid ***mismatches or related*** arrangements where at least one of the parties involved is a corporate taxpayer in a Member State.

## Amendment 9

### Proposal for a directive Recital 9

*Text proposed by the Commission*

(9) Rules on hybrid mismatches *should* address mismatch situations which *are the result of conflicting tax rules of two (or more) jurisdictions. However, those rules should not affect the general features of the tax system of a jurisdiction.*

*Amendment*

(9) *It is essential that* rules on hybrid mismatches *apply automatically whenever a payment comes across a border having been deducted at the paying end, without having to prove a tax avoidance motive, and* address mismatch situations which *result from double deductions, conflicts in the legal characterisation of financial instruments, payments and entities, or conflicts in the allocation of payments. As hybrid mismatches could lead to a double deduction or to a deduction without inclusion, it is necessary to lay down rules whereby the Member State concerned either denies the deduction of a payment, expenses or losses or requires the taxpayer to include the payment in its taxable income.*

## Amendment 10

### Proposal for a directive Recital 9 a (new)

*Text proposed by the Commission*

*Amendment*

(9a) *Permanent establishment mismatches occur where differences in the rules for allocating income and expenditure between different parts of the same entity in the permanent establishment jurisdiction and those in the residence jurisdiction give rise to a mismatch in tax outcomes, including cases where a mismatch outcome arises due to the fact that a permanent establishment is disregarded as a result of the application of the laws of the branch jurisdiction. Those mismatch outcomes could lead to non-taxation without inclusion, a double deduction or a*

*deduction without inclusion, and should therefore be eliminated. In the case of disregarded permanent establishments, the Member State in which the taxpayer is resident should require the taxpayer to include in its taxable income the income that would otherwise be attributed to the permanent establishment.*

## **Amendment 11**

### **Proposal for a directive Recital 10**

*Text proposed by the Commission*

*Amendment*

*(10) In order to ensure proportionality it is necessary to address only the cases where there is a substantial risk of avoiding taxation through the use of hybrid mismatches. It is therefore appropriate to cover hybrid mismatch arrangements between the taxpayer and its associated enterprises and hybrid mismatches resulting from a structured arrangement involving a taxpayer.*

*deleted*

## **Amendment 12**

### **Proposal for a directive Recital 11**

*Text proposed by the Commission*

*Amendment*

*(11) In order to provide for a sufficiently comprehensive definition of 'associated enterprise' for the purposes of the rules on hybrid mismatches, that definition should also comprise an entity that is part of the same consolidated group for accounting purposes, an enterprise in which the taxpayer has a significant influence in the management and reversely, an enterprise that has a significant influence in the management of the taxpayer.*

*deleted*

## Amendment 13

### Proposal for a directive Recital 12

*Text proposed by the Commission*

***(12) Mismatches that particularly pertain to the hybridity of entities should be addressed only where one of the associated enterprises has – at a minimum - effective control over the other associated enterprises. Consequently, in those cases, it should be required that an associated enterprise be held by, or hold, the taxpayer or another associated enterprise through a participation in terms of voting rights, capital ownership or entitlement to received profits of 50 percent or more.***

*Amendment*

***deleted***

## Amendment 14

### Proposal for a directive Recital 15

*Text proposed by the Commission*

(15) As hybrid entity mismatches involving third countries **may** lead to a double deduction or to a deduction without inclusion, it is necessary to lay down rules whereby the Member State concerned either denies the deduction of a payment, expenses or losses or requires the taxpayer to include the payment in its taxable income, as the case may be.

*Amendment*

(15) As hybrid entity mismatches involving third countries **in several cases** lead to a double deduction or to a deduction without inclusion, it is necessary to lay down rules whereby the Member State concerned either denies the deduction of a payment, expenses or losses or requires the taxpayer to include the payment in its taxable income, as the case may be.

## Amendment 15

### Proposal for a directive Recital 17

*Text proposed by the Commission*

(17) Hybrid transfers may give rise to a difference in tax treatment if, as a result of

*Amendment*

(17) Hybrid transfers may give rise to a difference in tax treatment if, as a result of

a transfer of a financial instrument *under a structured arrangement*, the underlying return on that instrument is treated as derived simultaneously by more than one of the parties to the arrangement. The underlying return is the income related to and derived from the transferred instrument. This difference in tax treatment may lead to a deduction without inclusion or to a tax credit in two different jurisdictions for the same tax withheld at source. Such mismatches should therefore be eliminated. In case of a deduction without inclusion the same rules should apply as for neutralising a hybrid financial instrument or hybrid entity mismatch leading to a deduction without inclusion. In case of a double tax credit, the Member State concerned should limit the benefit of the tax credit in proportion to the net taxable income with respect to the underlying return.

(19) Imported mismatches shift the effect of a hybrid mismatch between parties in third countries into the jurisdiction of a Member State through the use of a non-hybrid instrument thereby undermining the effectiveness of the rules that neutralise hybrid mismatches. A deductible payment in a Member State can be used to fund expenditure under a structured arrangement involving a hybrid mismatch between third countries. To counter such imported mismatches, it is necessary to include rules that disallow the deduction of a payment if the corresponding income from that payment is *set-off*, directly or indirectly, against a deduction that arises under a hybrid mismatch arrangement giving rise to a double deduction or a deduction

### Proposal for a directive

#### Recital 21

##### *Text proposed by the Commission*

(21) The objective of this Directive is to improve the resilience of the internal market as a whole against hybrid ***mismatch arrangements***. This cannot be sufficiently achieved by the Member States acting individually, given that national corporate tax systems are disparate and that independent action by Member States would only replicate the existing fragmentation of the internal market in direct taxation. It would thus allow inefficiencies and distortions to persist in the interaction of distinct national measures. This would thus result in a lack of coordination. That objective can rather, due to the cross-border nature of hybrid ***mismatch arrangements*** and the need to adopt solutions that function for the internal market as a whole, be better achieved at Union level. The Union may therefore adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this Directive does not go beyond what is necessary in order to achieve that objective. By setting the required level of protection for the internal market, this Directive only aims to achieve the essential degree of coordination within the Union that is necessary to achieve its objectives.

## Amendment 42

### Proposal for a directive

#### Article 1 – paragraph 1 – point 4

Directive (EU) 2016/1164

Article 9a – paragraph 1

*Text proposed by the Commission*

*Amendment*

To the extent that a payment, expenses or losses of a taxpayer who is resident for tax purposes in both a Member State and a third country, in accordance with the laws of that Member State and that third country, are deductible from the taxable base in both jurisdictions and that payment, those expenses or losses can be *set-off* in the Member State of the taxpayer against taxable income that is not included in the third country, the Member State of the taxpayer shall deny the deduction of the payment, expenses or losses, unless the third country has already done so.

To the extent that a payment, expenses or losses of a taxpayer who is resident for tax purposes in both a Member State and a third country, in accordance with the laws of that Member State and that third country, are deductible from the taxable base in both jurisdictions and that payment, those expenses or losses can be *set off* in the Member State of the taxpayer against taxable income that is not included in the third country, the Member State of the taxpayer shall deny the deduction of the payment, expenses or losses, unless the third country has already done so. ***Such***

*denial of deduction shall also apply to situations where a taxpayer is 'stateless' for tax purposes. The burden of proof of demonstrating that the third country has denied the deduction of the payment, expense or loss shall be on the taxpayer.*
