Daily and weekly driving times, minimum breaks and rest periods and positioning by means of tachographs *I**

European Parliament legislative resolution of 4 April 2019 on the proposal for a regulation of the European Parliament and of the Council amending Regulation (EC) No 561/2006 as regards on minimum requirements on maximum daily and weekly driving times, minimum breaks and daily and weekly rest periods and Regulation (EU) 165/2014 as regards positioning by means of tachographs (COM(2017)0277 – C8-0167/2017 – 2017/0122(COD))

(Ordinary legislative procedure: first reading)

The European Parliament,

- having regard to the Commission proposal to Parliament and the Council (COM(2017)0277),
- having regard to Article 294(2) and Article 91(1) of the Treaty on the Functioning of the European Union, pursuant to which the Commission submitted the proposal to Parliament (C8-0167/2017),
- having regard to Article 294(3) of the Treaty on the Functioning of the European Union,
- having regard to the opinion of the European Economic and Social Committee of 18 January 2018¹,
- having regard to the opinion of the Committee of the Regions of 1 February 2018²,
- having regard to Rule 59 of its Rules of Procedure,
- having regard to the report of the Committee on Transport and Tourism and the opinion of the Committee on Employment and Social Affairs (A8-0205/2018),

1. Adopts its position at first reading hereinafter set out;

¹ OJ C 197, 8.6.2018, p. 45.

² OJ C 176, 23.5.2018, p. 57.

2. Calls on the Commission to refer the matter to Parliament again if it replaces, substantially amends or intends to substantially amend its proposal;
3. Instructs its President to forward its position to the Council, the Commission and the national parliaments.

Amendment 346

Proposal for a regulation

Recital 1

Text proposed by the Commission

(1) Good working conditions for drivers and fair business conditions for road transport undertakings are of paramount importance to creating a safe, efficient and socially accountable road transport sector. To facilitate that process it is essential that the Union social rules in road transport are clear, fit for purpose, easy to apply and to enforce and implemented in an effective and consistent manner throughout the Union.

Amendment

(1) Good working conditions for drivers and fair business conditions for road transport undertakings are of paramount importance to creating a safe, efficient and socially accountable **and non-discriminatory** road transport sector, **which is able to attract qualified workers**. To facilitate that process it is essential that the Union social rules in road transport are clear, **proportionate**, fit for purpose, easy to apply and to enforce and implemented in an effective and consistent manner throughout the Union.

Amendment 347

Proposal for a regulation

Recital 2

Text proposed by the Commission

(2) Having evaluated the effectiveness and efficiency of the implementation of the existing set of Union social rules in road transport, and in particular Regulation (EC) No 561/2006 of the European Parliament and of the Council⁹, certain deficiencies were identified in the **existing** legal framework. Unclear **and unsuitable** rules on weekly rest, resting facilities, breaks in multi-manning and the absence of rules on the return of drivers to their home, lead to diverging interpretations and enforcement practices in the Member States. Several Member States recently adopted unilateral measures further increasing legal uncertainty and unequal treatment of drivers and operators.

Amendment

(2) Having evaluated the effectiveness and efficiency of the implementation of the existing set of Union social rules in road transport, and in particular Regulation (EC) No 561/2006 of the European Parliament and of the Council⁹, certain deficiencies were identified in the **implementation of the** legal framework. Unclear rules on weekly rest, resting facilities, breaks in multi-manning and the absence of rules on the return of drivers to their home **or to another location of their choice**, lead to diverging interpretations and enforcement practices in the Member States. Several Member States recently adopted unilateral measures further increasing legal uncertainty and unequal treatment of drivers and operators.

On the other hand, the maximum driving periods per day and per week, as set out in Regulation (EC) No 561/2006, are effective in improving the social conditions of road drivers and road safety in general and therefore steps should be taken to ensure that they are respected.

⁹ Regulation (EC) No 561/2006 of the European Parliament and of the Council of 15 March 2006 on the harmonisation of certain social legislation relating to road transport and amending Council Regulations (EEC) No 3821/85 and (EC) No 2135/98 and repealing Council Regulation (EEC) No 3820/85 (OJ L 102, 11.4.2006, p. 1).

⁹ Regulation (EC) No 561/2006 of the European Parliament and of the Council of 15 March 2006 on the harmonisation of certain social legislation relating to road transport and amending Council Regulations (EEC) No 3821/85 and (EC) No 2135/98 and repealing Council Regulation (EEC) No 3820/85 (OJ L 102, 11.4.2006, p. 1).

Amendment 348

Proposal for a regulation Recital 2 a (new)

Text proposed by the Commission

Amendment

.(2a) It is in the interests of road safety and enforcement that all drivers should be fully aware of both the rules on driving and rest times and the availability of rest facilities. Therefore, it is appropriate for Member States to work to produce guidance that presents this Regulation in a clear and simple manner, gives useful information on parking and rest facilities and underlines the importance combating fatigue.

Amendment 349

Proposal for a regulation Recital 2 b (new)

Text proposed by the Commission

Amendment

(2b) It is in the interests of road safety to encourage transport undertakings to adopt a safety culture which includes safety policies and procedures issued by senior management, the commitment to implementing safety policy shown by the line management and the willingness to comply with safety rules shown by the workforce. There should be a clear focus on road transport safety issues, including fatigue, liability, journey planning, rostering, performance-based pay and 'just in time' management.

Amendment 350

Proposal for a regulation Recital 3

Text proposed by the Commission

Amendment

(3) The ex-post evaluation of Regulation (EC) No 561/2006 confirmed that inconsistent and ineffective enforcement of the Union social rules was mainly due to unclear rules, inefficient use of the control tools and insufficient administrative cooperation between the Member States.

(3) The ex-post evaluation of Regulation (EC) No 561/2006 confirmed that inconsistent and ineffective enforcement of the Union social rules was mainly due to unclear rules, inefficient ***and unequal*** use of the control tools and insufficient administrative cooperation between the Member States, ***increasing the fragmentation of the European internal market.***

conditions for drivers, and in particular ensuring undistorted **and fair** competition between operators and contributing to road safety for all road users.

Amendment 352

Proposal for a regulation Recital 4 a (new)

Text proposed by the Commission

Amendment

(4a) Any national rules applied to road transport must be proportionate as well as justified and must not hinder or make less attractive the exercise of fundamental freedoms guaranteed by the Treaty, such as the free movement of goods and the freedom to provide services in order to maintain or even increase the competitiveness of the European Union.

Amendment 353/rev

Proposal for a regulation Recital 4 b (new)

Text proposed by the Commission

Amendment

(4b) In order to ensure a European wide-level playing field in road transport, this Regulation should apply to all vehicles exceeding 2,4 tonnes engaged in international transport.

Amendment 354

Proposal for a regulation Recital 5 a (new)

Text proposed by the Commission

Amendment

(5a) Transporting goods is fundamentally different from transporting people. Coach drivers are in close contact with their passengers and should be in a position to take breaks with greater flexibility without extending driving periods or shortening rest periods and breaks.

Amendment 355

Proposal for a regulation

Recital 6

Text proposed by the Commission

Amendment

(6) Drivers engaged in long-distance international transport operations spend long periods away from their home. The current requirements on the regular weekly rest unnecessarily prolong those periods. It is thus desirable to adapt the provision on the regular weekly rest in such a way that it is easier for drivers to carry out transport operations in compliance with the rules and to reach their home for a regular weekly rest, and be fully compensated for all reduced weekly rest periods. It is also necessary to provide that operators organise the work of drivers in such a way that these periods away from home are not excessively long.

The current requirements on the regular weekly rest unnecessarily prolong those periods. It is thus desirable to adapt the provision on the regular weekly rest in such a way that it is easier for drivers to carry out transport operations in compliance with the rules and to reach their home ***or a destination of their choosing*** for a regular weekly rest, and be fully compensated for all reduced weekly rest periods. It is also necessary to provide that operators organise the work of drivers in such a way that these periods away from home are not excessively long ***When a driver chooses to spend this rest period at home, the transport undertaking should provide the driver with the means to return.***

Amendment 356

Proposal for a regulation

Recital 6 a (new)

Text proposed by the Commission

Amendment

(6a) Where the work of a driver predictably includes activities for the employer other than his/her professional driving tasks, such as loading / unloading, finding parking space, maintaining the vehicle, route preparation etc, the time he/she needs to perform these tasks should be taken into account when determining both his/her working time, the possibility for adequate rest and pay.

Amendment 357

**Proposal for a regulation
Recital 6 b (new)**

Text proposed by the Commission

Amendment

(6b) In order to safeguard working conditions of the drivers at places of loading and unloading, owners and operators of such facilities should provide the driver with the access to hygienic facilities.

Amendment 358

**Proposal for a regulation
Recital 6 c (new)**

Text proposed by the Commission

Amendment

(6c) Rapid technological progress is resulting in the development of autonomous driving systems with increasing levels of sophistication. In the future, those systems could allow for a differentiated usage of vehicles the manoeuvring of which does not involve a driver. This could lead to new operational possibilities, such as truck platooning. As a result, existing legislation, including

rules on driving and resting times, will need to be adapted, for which progress at the UNECE Working Party level is essential. The Commission shall come forward with an evaluation report of the use of autonomous driving systems in the Member States, accompanied, if appropriate, by a legislative proposal to take into account the benefits of autonomous driving technologies. The intention of this legislation is to guarantee road safety, a level-playing field and proper working conditions, whilst enabling the EU to pioneer new innovative technologies and practices.

Amendment 359

Proposal for a regulation Recital 7

Text proposed by the Commission

(7) There are differences among Member States in the interpretation and implementation of the weekly rest requirements as regards the place where the weekly rest should be taken. *It* is therefore appropriate to clarify that requirement to ensure that drivers are provided with **adequate** accommodation for their regular weekly rest periods if they are taken away from home.

Amendment

(7) There are differences among Member States in the interpretation and implementation of the weekly rest requirements as regards the place where the weekly rest should be taken. ***In order to ensure good working conditions and the safety of drivers, it*** is therefore appropriate to clarify that requirement to ensure that drivers are provided with ***quality and gender friendly*** accommodation ***or another location as chosen by the driver and paid for by the employer*** for their regular weekly rest periods if they are taken away from home. ***Member States should ensure the availability of sufficient secure parking areas that are adapted to the needs of the drivers.***

Amendment 360

Proposal for a regulation

Recital 7 a (new)

Text proposed by the Commission

Amendment

(7a) Dedicated Parking areas should have all of the facilities necessary for good resting conditions, that is to say sanitary, culinary, security and others.

Amendment 361

**Proposal for a regulation
Recital 7 b (new)**

Text proposed by the Commission

Amendment

(7b) Adequate resting facilities are crucial for improving drivers working conditions in the sector and maintaining road safety. As rest in the cabin is characteristic for the transport sector and in certain cases desirable from a comfort and suitability perspective, drivers should be allowed to take their rest in their vehicle, if the vehicle is equipped with suitable sleeping facilities. Therefore the creation of dedicated parking areas should not be disproportionately hindered or obstructed by Member States.

Amendment 362

**Proposal for a regulation
Recital 7 c (new)**

Text proposed by the Commission

Amendment

(7c) The revised TEN-T guidelines foresee the development of parking area's on motorways approximately every 100 km to provide parking space for commercial road users with an appropriate level of safety and security and therefore Member States should be

encouraged to implement the TEN-T guidelines and sufficiently support and invest in safe and suitably adapted parking areas.

Amendment 363

**Proposal for a regulation
Recital 7 d (new)**

Text proposed by the Commission

Amendment

(7d) In order to provide good quality affordable rest facilities, the Commission and Member States should encourage the establishment of social, commercial, public and other enterprises for the operation of dedicated parking areas.

Amendment 364

**Proposal for a regulation
Recital 8 a (new)**

Text proposed by the Commission

Amendment

(8a) Many road transport operations within the Union involve transport by ferry or by rail for part of the journey. Clear, appropriate provisions regarding rest periods and breaks should therefore be laid down for such operations.

Amendment 365

**Proposal for a regulation
Recital 9 a (new)**

Text proposed by the Commission

Amendment

(9a) In order to guarantee effective enforcement, it is essential that the

competent authorities, when carrying out roadside checks should be able to ascertain that driving times and rest periods have been properly observed on the day of the check and over the preceding 56 days.

Amendment 366

Proposal for a regulation Recital 9 b (new)

Text proposed by the Commission

Amendment

(9b) In order to ensure that rules are clear, easy to understand and enforceable, information must be made accessible to the drivers. This should be achieved through the coordination of the Commission. Drivers should also receive information on rest areas and secure parking to allow for better planning of journeys. Furthermore, through the Commission's coordination a free telephone hotline should be installed to alert control services in case undue pressure is put on drivers, fraud or illegal behaviour.

Amendment 367

Proposal for a regulation Recital 9 c (new)

Text proposed by the Commission

Amendment

(9c) Article 6 of Regulation (EC) No 1071/2009 obliges Member States to apply common classification of infringements when assessing good repute. Member States should take all measures necessary to ensure that national rules on penalties applicable to infringements of Regulation (EC) No 561/2006 and Regulation (EU)

No 165/2014 are implemented in an effective, proportionate and dissuasive manner. Further steps are needed to ensure that all penalties applied by Member States are non-discriminatory and proportionate to the seriousness of infringement.

Amendment 368

Proposal for a regulation Recital 11

Text proposed by the Commission

(11) To enhance cost-effectiveness of enforcement of the social rules ***the potential of*** the current and ***future*** tachograph systems should be ***fully exploited***. Therefore the functionalities of the tachograph should be improved to allow for more precise positioning, ***in particular during international transport operations***.

Amendment

(11) To enhance cost-effectiveness of enforcement of the social rules the current and ***smart*** tachograph systems should be ***mandatory in international transport***. Therefore the functionalities of the tachograph should be improved to allow for more precise positioning.

Amendment 369

Proposal for a regulation Recital 11 a (new)

Text proposed by the Commission

Amendment

(11a) The rapid development of new technologies and digitalisation throughout the Union economy and the need for a level playing field among companies in international road transport make it necessary to shorten the transitional period for the installation of the smart tachograph in registered vehicles. The smart tachograph will contribute to simplified controls and thus facilitate the work of national authorities.

Amendment 370

**Proposal for a regulation
Recital 11 b (new)**

Text proposed by the Commission

Amendment

(11b) Taking into account the wide-spread use of smartphones and the continuous development of their functionalities, and in view of the deployment of Galileo, which offers increasing opportunities for real time localisation, which many mobile already use, the Commission should explore the possibility of developing and certifying a mobile application that offers the same benefits as those offered by the smart tachograph, at the same associated costs.”

Amendment 371

**Proposal for a regulation
Recital 11 c (new)**

Text proposed by the Commission

Amendment

(11c) In order to guarantee appropriate health and safety standards for drivers, it is necessary to establish or upgrade secure parking areas, adequate sanitary facilities and quality accommodation. A sufficient network of parking areas should exist within the Union.

Amendment 372

**Proposal for a regulation
Recital 12 a (new)**

Text proposed by the Commission

Amendment

(12a) Acknowledges that transporting goods is different from transporting people. Coach drivers are in close contact with their passengers and should be given more suitable conditions within the framework of this Regulation without extending driving times or shortening rest periods and breaks. Therefore, the Commission shall evaluate if specific rules for this sector can be adopted, especially for occasional services as defined in Article 2 paragraph 1 number 4 of Regulation (EC) No 1073/2009 of the European Parliament and the Council of 21 October 2009 on common rules for access to the international market for coach and bus services.
