## ANNEX TO THE LEGISLATIVE RESOLUTION

### **Statement by the European Parliament and the Commission on fisheries in the Channel**

The European Parliament and the Commission take note of the situation of fisheries in the Channel and the concerns raised by local and regional fisheries stakeholders, including fishers, regarding the use of demersal seines by numerous vessels.

The European Parliament and the Commission encourage close cooperation between those stakeholders and initiatives from them and invite Member States to follow up, where relevant, with the submission of joint recommendations. The Commission will follow up with measures, where appropriate, including technical measures, based on consultations of stakeholders and an assessment by the relevant scientific bodies including an assessment of socio-economic impacts. In that regard, the Commission will ensure that funding is available for scientific research and advice.

### **Statement by the Commission on review of the CFP Regulation**

In the event that it considers a review of the CFP Regulation, the Commission will conduct an impact assessment, along the lines of the Better Regulation principles. The Commission will make available to the co-legislators the impact assessment at the moment it publishes such proposal.

Alternatively, it will consider reporting on the implementation of the Common Fisheries Policy at the latest by 2032.
