² Position of the European Parliament of 13 March 2024.

Whereas:

- (1) Reporting requirements play a key role in ensuring proper monitoring and correct enforcement of legislation. However, it is important to streamline such requirements, in order to ensure that they fulfil the purpose for which they were intended and to limit the administrative burden.
- (2) Directives 2009/12/EC³, 2009/33/EC⁴ and (EU) 2022/1999⁵ of the European Parliament and of the Council and Council Directive 96/67/EC⁶ contain a number of reporting requirements in the fields of road transport and aviation, which should be simplified in line with the Commission's Communication of 16 March 2023 entitled 'Long-term competitiveness of the EU: looking beyond 2030'.

³ Directive 2009/12/EC of the European Parliament and of the Council of 11 March 2009 on airport charges (OJ L 70, 14.3.2009, p. 11).

⁴ Directive 2009/33/EC of the European Parliament and of the Council of 23 April 2009 on the promotion of clean and energy-efficient road transport vehicles (OJ L 120, 15.5.2009, p. 5).

⁵ Directive (EU) 2022/1999 of the European Parliament and of the Council of 19 October 2022 on uniform procedures for checks on the transport of dangerous goods by road (OJ L 274, 24.10.2022, p. 1).

⁶ Council Directive 96/67/EC of 15 October 1996 on access to the groundhandling market at Community airports (OJ L 272, 25.10.1996, p. 36).

- (3) Directive 2009/12/EC applies to all airports located in a territory subject to the Treaty and open to commercial traffic whose annual traffic is over five million passenger movements and to the airport with the highest passenger movement in each Member State. It requires Member States to publish a list of the airports on their territory to which that Directive applies, and to update that list annually. As the information contained in that list is publicly available and easily accessible to stakeholders from airports, airport associations and Eurostat, and in order to reduce the administrative burden, it is appropriate to remove that obligation of publication.
- (4) Directive 2009/33/EC sets minimum procurement targets for clean vehicles, expressed as minimum percentages of clean vehicles in the total number of road transport vehicles covered by contracts awarded during two reference periods. The first of those reference periods runs from 2 August 2021 to 31 December 2025, and the second from 1 January 2026 to 31 December 2030.

- (5) Directive 2009/33/EC requires Member States to report on the implementation of that Directive by 18 April 2026, and every three years thereafter. Member States' reports are to include the number and categories of vehicles procured within the scope of Directive 2009/33/EC. Furthermore, Directive 2009/33/EC requires the Commission to submit a report to the European Parliament and to the Council on the implementation of that Directive by 18 April 2027 and every three years thereafter, based on the reports submitted by the Member States pursuant to that Directive.
- (6) In order to reduce the administrative burden and rationalise the reporting schedule, it is appropriate to reduce the frequency of Member States' reporting under Directive 2009/33/EC, and to fully align it with the five-year reference periods provided for in that Directive. ***Given that change in the reporting frequency, it is no longer appropriate to require that such reporting accompanies the reports referred to in Article 83(3), second subparagraph, of Directive 2014/24/EU of the European Parliament and of the Council⁷ and Article 99(3), second subparagraph, of Directive 2014/25/EU of the European Parliament and of the Council⁸, both of which provide for reporting every three years.*** As the Commission's reporting to the European Parliament and to the Council builds on national reports from Member States, the frequency of that reporting should also be adapted accordingly.

⁷ Directive 2014/24/EU of the European Parliament and of the Council of 26 February 2014 on public procurement and repealing Directive 2004/18/EC (OJ L 94, 28.3.2014, p. 65).

⁸ Directive 2014/25/EU of the European Parliament and of the Council of 26 February 2014 on procurement by entities operating in the water, energy, transport and postal services sectors and repealing Directive 2004/17/EC (OJ L 94, 28.3.2014, p. 243).

- (7) Directive (EU) 2022/1999 requires Member States to send the Commission a report on the application of that Directive for each calendar year. Given the limited benefits of yearly reporting, and in order to reduce the administrative burden and rationalise the reporting schedule, it is appropriate to reduce the frequency of such reports to every second calendar year.
- (8) As regards the content of reports on its application, Directive (EU) 2022/1999 requires Member States to include, if possible, the determined or estimated volume of dangerous goods transported by road, in tonnes transported or in tonnes/kilometres. Due to the optional nature of that requirement, relevant data are not collected or are not reported consistently by the Member States. Meanwhile, Eurostat provides clear and consistent data regarding the carriage of dangerous goods, which the Commission relies on to draw up the triennial report to the European Parliament and to the Council. As the Commission already has access to those data, it is appropriate to remove the obligation to report the total volume of dangerous goods carried by road in the Member State in order to reduce the administrative burden.

- (9) Directive (EU) 2022/1999 also requires the Commission to send the European Parliament and the Council, for the first time in 1999 and subsequently at least every three years, a report on the application of that Directive by the Member States. In order to reduce the administrative burden and rationalise the reporting schedule, it is appropriate to require that that report be sent every four years.
- (10) Article 1(4) of Directive 96/67/EC requires the Commission to publish annually a list of the airports falling within its scope and Member States to forward to the Commission the data necessary to compile that list,. As that information is publicly available and easily accessible to stakeholders from airports, airport associations or Eurostat, and in order to reduce the administrative burden, it is appropriate to remove that obligation of reporting and publication.
- (11) Directives 2009/12/EC, 2009/33/EC, (EU) 2022/1999 and 96/67/EC should therefore be amended accordingly,
