4to Congreso Latinoamericano
de Telecomunicaciones
CANCUN • MEXICO • 20-23 JUNIO

Caracas, May 10th, 2016

Mrs.

Kaja Kallas

Vice-Chair, Delegation to the EU-Ukraine Parliamentary Association Committee
European Parliament

Dear Mrs. Kallas,

We are pleased to inform you about the upcoming 4th Edition of the Latin American Telecommunications Congress (CLT 2016) which will be held at the Casa Magna Marriot Resort in Cancún, México from June 20th to June 23rd. CAF – Latin American Development Bank - is organizing the event in collaboration with Asiet, GSMA, ITU and Mexico's Secretariat of Communications and Transportation (SCT). This event will constitute the most relevant forum for the debate on the modernization of regulatory frameworks, the challenges facing infrastructure deployment, regional economic outlooks and their impact on the ICT sector, as well as on privacy protection and security within a new digital context, in addition to several other relevant topics for the region.

For this edition, we are once again joined by organizations such as the Latin American and Caribbean IP Address Regional Registry (LACNIC), Internet Society (ISOC) and the Internet Corporation for Assigned Names and Numbers (ICANN). Additionally, for a second consecutive year and within the scope of the Congress, we will be hosting the CPR Latam Conference 2016. This forum will foster debates from an academic standpoint on the main challenges and opportunities faced by the ICT industries in Latin America.

This year, we have a seminar titled *Connectivity and the Digital Single Market in Latin America*, organized by Asiet, CAF -Latin American development bank- and the Economic Commission for Latin America and the Caribbean, ECLAC. The primary aim of this event is to use the European experience in configuring such a digital market as a guideline to further discuss both its basic elements and the barriers presented by on the ground realities in Latin America and the Caribbean which must be overcome in order to successfully progress and promote the highest levels of development in connectivity and the digital economy.

4to Congreso Latinoamericano
de Telecomunicaciones
CANCUN • MEXICO • 20-23 JUNIO

In light of the important role that you represent to this end within the European Parliament, we would like to formally invite you to participate in the aforementioned panel which will take place on June 22th. We are certain that your presence would greatly benefit the development of the event as well as serve your common interests in promoting Digital Markets.

For additional information regarding the event, please find attached a copy of the general structure as well as the Agenda for the plenary session. You may also find additional details at www.clt2016.org. If you have any questions, please feel free to contact us at infor@clt2016.org

We sincerely hope we can count on your participation.

Kind regards,

- The institutional gap in Internet Governance
- The European Union experience
- Next steps for Latin America

16:15 – 16:30

Special CAF Presentation:

Public-Private Associations for Broadband Development,
EHAS Foundation

Seminar

“Connectivity and the Digital Single Market in Latin America”

June 22nd, 2016 | 14:00 – 16:30 Open session

PROGRAM

Topics of discussion

Outlook of the Digital Economy in Latin America

- Latin America and the production of digital content
- The use of Internet in the region
- Digital Innovation: a challenge for the region

Integration processes for digital markets in Latin America

- Progress, challenges, and areas of improvement

Why a Digital Single Market for Latin America?

- Challenges presented by a fragmented market
- Promoting the creation and consumption of local content in Latin America
- Advantage development: Potential market comprising over 600 million inhabitants and only two languages.
- Opportunity to create economic and cultural wealth and value.
- A single telecommunications market to complement the DSM.

Remaining challenges

- Ease of intraregional network integration
- Removal of obstacles to e-commerce
- Consumer and privacy protection in the digital environment
- Taxation and tax harmonization
- Audiovisual content: Improvements in distribution, incentives for internal consumption, property rights, broadcast policies, and geolocation
- Enabling telework
- Spectrum: Policy harmonization

Internet Jurisdiction: The institutional gap in Internet Governance

- National jurisdictions and cyberspace
- Towards a transnational cooperation framework

The European Union experience

- Accomplishments, past lessons
- General Outlook of the European Union's Digital Single Market
- Main challenges present in implementing the European DSM Strategy

Next steps for Latin America

- Past lessons to be applied in Latin America
- Case studies in Latin America
