- the administrative and operational expenditure of the parliamentary groups / non-attached Members' secretariat;

- expenditure on political and information activities conducted by the parliamentary groups / non-attached Members in connection with the European Union's political activities.

These appropriations may not:

- substitute for expenditure already covered by other budget items within the budget of the European Parliament, in particular expenditure under the rules governing the Members' expenses and allowances.

To this end, the necessary measures must be taken by the political groups and the Administration to prevent any risk of double payment, particularly with regard to the general expenditure allowance, parliamentary assistance allowances, travel and subsistence expenses and visitors groups.

In cooperation with the Secretary-General of Parliament, the secretaries-general of the political groups shall determine arrangements to permit the exchange of information and to ensure a clear allocation of responsibilities;

Implementing measures:
- Rules governing Members’ missions

- be used for the acquisition of immovable property.

1.1.2 The nature of expenditure must conform to the common accounting plan, which forms an integral part of these rules.

1.2 Allocation of appropriations

1.2.1 The allocation of the appropriations between the political groups and the non-attached Members shall be the subject of a decision of the Bureau based on a scale proposed by the chairs of the political groups. This allocation shall be established on the basis of the composition of the political groups and the number of non-attached Members as at 1 January of the year in question. It shall be effected on a fixed basis reflecting numbers and languages represented (see Annex 3).

1.2.2 The parliamentary groups / non-attached Members may not finance their activities, as described in Article 1.1.1, from resources other than those made available to them under budget item 4000 or the resources derived therefrom. Parliamentary groups / non-attached Members in their capacity as Members of the European Parliament may not receive either donations or legacies.

1.2.2 The bank accounts opened by the Group may not receive funds other than those described in Article 1.2.2 of the Rules.
1.3 Changes and mergers between groups and dissolution of groups

1.3.1 Changes to the composition of the groups during the course of the financial year shall give rise to a proportional reallocation of appropriations on a pro rata basis.

This reallocation shall come into effect on the first day of the quarter following the date upon which the composition of the political group(s) was altered (1 January, 1 April, 1 July, 1 October). The Administration will carry out this reallocation at the beginning of the following financial year, when the appropriations are paid.

In the case of an especially significant change in composition, the Administration will submit a reallocation of appropriations to the Bureau for its approval.

Where one or more members of a political group opt to become non-attached, the amount to which a non-attached Member is entitled shall be reimbursed on a pro rata temporis basis. This reallocation shall come into effect on the first day of the quarter following the date upon which the composition of the political group(s) was altered (1 January, 1 April, 1 July, 1 October). The Administration shall inform the political group(s) of the amount to be reimbursed; reimbursement shall be effected no later than 1 month after notification by the Administration. Should the amount not be reimbursed, it will be deducted at the beginning of the following financial year, when the appropriations are paid.

transferred to the group concerned.

Following the preparation of the financial statements as of the date of the dissolution of the group, the realisation of all assets and liabilities of the group shall be effected under the joint supervision of the former chairman of the group and of the Secretary-General of the European Parliament or his/her representative. The net assets, including any fixed assets, shall be reimbursed to the European Parliament.

The European Parliament shall keep, for a period of at least five years after the discharge granted by it to the President, all documents pertaining to the implementation and execution of the budget of the political group.

2.3 Procurement

Unless the provider is an institution or has already been selected by an institution, following an invitation to tender, all purchases must be

Threshold requiring a call for offers
- Where, in any financial year, the cost of services from a single supplier exceeds €13800 or €50000 (excluding VAt), 3 or 5 offers must be
made through procurement procedures, account being taken of political groups’ specific circumstances, which are as follows:

- a consultation procedure with at least five candidates must be used for contracts with a value of more than €50,000; a decision may be taken only if at least three valid tenders have been submitted;

- a consultation procedure with at least three candidates must be used for contracts with a value of between €13,800 and €50,000;

- for any contract with a value of less than €13,800, a single tender shall be sufficient.

The choice of supplier or provider must be substantiated and all the procurement-related documents must be kept by the authorising officer.

Political groups may award a contract by negotiated procedure on the basis of a single tender, by way of derogation from the provisions of this article, in the instances referred to in Articles 124 and 125 of the Commission Regulation laying down detailed rules for the implementation of the Financial Regulation of the European Union.

sought. Accordingly, each financial year is a stand-alone period. However, invoices from a supplier may not be spread over more than one financial year in order to circumvent the intended effect of the call for offers procedure.

- Contracts may be concluded for a maximum of five years, including any renewable periods. In such cases, the threshold will take effect having regard to the full duration of the contract and all potential expenditure provided for in the contract.

- Where a contractor engages and pays subcontractors, the threshold applies to the contractor’s global invoice.

- In the case of decentralised expenditure, the foregoing procedures shall apply to each national delegation independently.

- Exceptions
  - Negotiation on the basis of a single tender is permitted in the case of instances/services referred to in Articles 126 of the Financial Regulation Implementation Rules.
  - When the object of an activity is a message in the media, it is authorised to choose the most appropriate medium to reach that audience. However, the Group cannot pay more than the going commercial rates of that chosen medium.

**Invitation procedure**

Contact with potential suppliers can be made directly by email, letter/fax, or by public advertisement, leaving potential suppliers a reasonable deadline for reply.

The call for offers should be sufficiently detailed to allow all suppliers to compete fairly and to allow an objective and transparent comparative assessment to be made of offers received.

They should detail the criteria to be used. These can be whatever is appropriate in the circumstances and might include: price; previous experience; examples of previous work; quality of CV of persons responsible; language capacity; proximity to delivery point; etc.

A procedure for obtaining offers which is most appropriate to the circumstances may be chosen, and could be one of the following.
i) A simple once-off product or service where quantity and specifications are known.
   Invite 3/5 suppliers to quote for a specific product or service. Formalise agreement by Bon de Commande, or letter/fax/email accepting the offer. The invitation and the offer should be part of the letter of acceptance.

ii) A repeated or ongoing product or service where quantity and specifications are known.
    Follow same procedure as in i) above but specify a duration up to a maximum of 5 years and, possibly, indicate a non-guaranteed volume of demand over the duration of the contract. The price should be fixed for a set period and may include provision for an annual increase in line with the CPI or with specific commodities.

iii) A series of purchases in the same sector where the specifications and/or quantities cannot be precisely stipulated in advance.
    Invite 3/5 suppliers to quote a fixed price for a selection of products/services in the target area for a maximum of 5 years, e.g., printing (a leaflet, a brochure, a booklet etc. of varying specifications); or, supplying a range of gadgets (biro, lighter, badge, calculator); etc.
    Select one supplier and justify the selection. Individual purchases would be confirmed by Bon de Commande, or letter/email detailing the conditions and price.
    Items similar to those included in the supplier's offer may be purchased from the successful tenderer.

iv) A continuing or repeated service where the price depends on the extent or complexity of the task.
    (Example: publication design, research paper, leaflet drafting, press/PR, event organisation.)
    Invite 3/5 suppliers to quote a rate per hour for the required service and an indicative number of hours for a particular job where this is practicable.
    Select one supplier and justify the selection.
    Agreement should be formalised in a contract and the time/price per task justified in the consequent periodic invoice.
Processing tenders received

a) Originals of all offers received must be retained. Where offers are received by email, the full email must be printed off - it is not sufficient to print off an attachment only.

b) Having selected the successful tenderer, the person responsible in the Group/Delegation and the Service Provider should sign a contract incorporating, and annexing, the terms of the call for Tender and the Tender Offer. (Keep an original copy)
Alternatively, for a non-complex product, a simple letter from the person responsible in the Group/Delegation, on official paper, incorporating and annexing the terms of the call for Tender and the Tender Offer may suffice. (Keep a photocopy)

c) The person responsible in the Group/Delegation must set out in writing (and sign) the details of the offers received and the reason(s) why the successful tenderer was chosen.

d) Documents required:
   - a copy of the Call for offers to each recipient;
   - the original reply from each recipient;
   - an original of the contract, or copy of the letter of acceptance of the tenderer's offer;
   - original of Treasurer's justification of selected tenderer;
   - completed Claim for Payment form; and
   - a completed VAT Exemption form where applicable.

Steps to follow in a call for offers (for guidance purposes only)
(See Paragraphs (i) and (ii) under Invitation procedure - where a similar service/product is repeated or can be precisely specified)

1. Estimate the value of the contract, over the whole period of the contract. This will determine which procedure you must follow:
   i) One offer: < €13,800; or, ii) 3 requests and 1 offer: €13,800-50,000; or, iii) 5 requests and 3 offers minimum: > €50,000. (By always seeking 5 offers, you avoid this problem).

renewable (but without guarantee) on 4 further occasions for one year:
the estimated value is calculated over 5 years.

3. Send the offer documents to 3 or 5 suppliers by letter/fax or by email.
You must retain a photocopy of the signed letter or a printed copy of the
full email.

4. The call for offers should set out the specifications in detail and should

   ii. the size of the pages
   iii. the type of paper/newsprint
   iv. shape of the brochure
   v. colour: black & white, one/two/full colour
   vi. the quantity: it can be a set number or a minimum and maximum
   vii. the fixed or estimated number of issues per year
   viii. the duration of the contract and whether it is renewable
   ix. **possibly** the amount (or Min / Max) that you might spend per
year
   x. the unit and the basis on which the tenderer should quote
   xi. selection basis: *lowest price* or *most economically advantageous
price*
   xii. the closing date for receipt of tenders
   xiii. the name and address to which tenders should be sent

PART THREE – GUIDELINES FOR THE INTERPRETATION

1. of Article 1.1.1 on expenditure covered by other budget items within the budget of the European Parliament (this interpretation does not apply to non-attached Members):

1.1 A political group, or a national delegation in the context of decentralised political or information activities, may use appropriations under budget line 4000 for office rental in a Member State, provided that the activities undertaken therein (including the activities of any staff employed and located there):

- are carried out in the name of the group or a delegation of the group only;
- do not bear the name of an individual MEP other than as a participant/director/contributor in/of/to this activity:

   and that such office is clearly identified as an office of the group/delegation of the group, is not used as an MEP’s constituency office, and is not used to accommodate an MEP’s assistant or for receiving or meeting the general public in a representational capacity as an MEP. (Where the circumstances may give rise to reasonable doubt, a Member may be called on to demonstrate that s/he is using her/his general expenditure allowance for office expenditure in her/his capacity as an MEP as evidence that Item 4000 appropriations are not being substituted for such expenditure).

1.2 A political group may authorise the use of item 4000 appropriations to cover travel expenses for a group mission, authorised in advance, for a Member travelling within the country in which s/he was elected, provided that the activity concerned takes place in a locality at least 150 km away from his/her home.

2. of Article 1.1.1 on the electoral nature of a political and information activity:

2.1 The electoral nature of an activity or action is determined by the general context of the activity. This means that even if expressions such as “candidate”, “list”, “parties”, “vote” are not directly used, the electoral character may emerge from the direct or indirect purpose and general context of the activity.

   An activity which is considered partially of an electoral nature will be rejected in its entirety.

   The prohibition of an activity of an electoral nature applies whatever the nature of the activity or the medium used.

2.2 The following political and information activities are considered to be permitted by the rules:

   - provision of information to the public about the date and the practical and technical arrangements for the elections and an invitation to citizens to participate in the elections;
   - an activity report for the outgoing Parliament;
   - any normal parliamentary activity undertaken under the direct responsibility of a political group or non-attached Member, such as the publication of press releases and
policy statements - any such political and information activity, undertaken by a political group or non-attached Member one month before a European election, must not be co-sponsored, co-signed or supported in any other way by any European, national, regional or local political party or organisation and must not include names of Members of the European Parliament other than as bibliographical information; and
- political and information activities in relation to a referendum campaign on a European subject.

2.3 As a guideline, even if this is not an exhaustive list, the following are considered as electoral campaigning and are thus forbidden under Item 4000:

- any use of the word candidate;
- any mention of a list or list number;
- any recommendation/request to vote for a list, a candidate of a political leaning or the direct or indirect use of the word vote in this context;
- any activity relating to the preparation of the electoral campaign;
- any mention of the fact that a sitting Member is standing as a candidate again and is seeking a vote/confidence/support; and
- the presence on any supporting material of the name/photo of standing candidates not currently Members of the European Parliament.
ANNEX

INVENTORIES

For each item of property, the inventory shall give the description, unit cost, purchase date, location and the most recent date on which its physical presence was checked by the group or confirmed by the holder. Each item shall be checked at least once every three years.

Before 30 January each year, each group's accounting officer shall forward to the Directorate-General for Finance a table setting out the value of the inventory as at 31 December of the previous financial year, together with the schedule of assets entered in the financial inventory. Should the audit report recommend that the value of the inventory be amended, the new value shall be given in the report to the European Parliament.

Any sale of assets entered in the inventory shall be published and recorded in the accounts and offers for the assets on sale invited. Any deletion from the inventory shall be recorded in a written declaration stating why the asset is to be deleted and how it is to be ultimately disposed of. The declaration shall be approved by the group's accounting officer.

Where a group is dissolved, the inventory register and all assets shall be handed over to the European Parliament.

Assets purchased by non-attached Members shall be entered by the Administration in the European Parliament's financial inventory (in respect of any item with a value equal to or greater than the threshold given in Article 2.4.1).

In the event of the resignation of a non-attached Member, or should his or her term of office come to an end, assets paid for from Parliament's budget shall be returned to the Administration at one of Parliament's places of work.

If a non-attached Member joins a political group, assets shall be transferred to that group's inventory. If a Member leaves a group, assets shall remain the property of the group which financed the purchase thereof.
