Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

**amending Council Regulation (EC) No 2223/96 with respect to the transmission of
national accounts data**

(presented by the Commission)

EXPLANATORY MEMORANDUM

1) Context of the proposal

- **Grounds for and objectives of the proposal**

The current transmission programme of national accounts data was defined ten years ago in Annex B of Regulation No 2223/96 (the ESA95 Regulation). Since then, the economic environment has changed substantially. As a consequence, policy priorities have altered and new user needs have emerged. There is a strong case now for a revision of the transmission programme to adapt it to the requirements and challenges of the coming years.

- **General context**

National accounts data are used for a number of policies, notably the Lisbon agenda and monetary policy, and for short-term economic analysis. Sound and pertinent national accounts data describing the economic environment are a necessary element to correctly assess and set up economic and monetary policies and related analyses. The transmission programme of national accounts data, whilst modified in some parts by recent legislation, needs to be revised to match users' needs and adequately describe the economic behaviour.

The review of the programme started in 2003. Key users were consulted about their data needs and producers about production constraints.

The proposal for the revised programme is the result of an intensive discussion at technical level and aims at striking a balance between new user needs and the constraints set to producers. In particular, two issues are addressed: the information requirements for the Economic and Monetary Union (EMU), notably the need for timely and pertinent sub-annual data, and statistics for structural and macro-economic policy assessments. The 2004 Economic and Financial Committee (EFC) Status Report on Information Requirements in EMU confirmed this orientation.

The Regulation proposal aims at replacing Annex B of the ESA95 regulation which covers the vast majority of the tables making up the transmission programme. However, some tables and data will continue to be governed by separate regulations. This concerns quarterly financial and non-financial accounts for general government, quarterly government debt and quarterly sector accounts.

Failure to supply the national accounts data needed, notably for monetary policy and the Lisbon agenda, will weaken the statistical basis for economic and monetary decision making.

- **Existing provisions in the area of the proposal**

The proposal for the revised programme does not represent a consolidated legal act which aims at integrating all existing legal acts relating to the transmission of data under ESA95. A number of tables will continue to be legislated by separate regulations:

- Table 25 by Commission Regulation (EC) No. 264/2000 on short-term public finance statistics and Regulation (EC) No. 1221/2002 of the European Parliament and of the Council on quarterly non-financial accounts of general government;
- Table 27 by Regulation (EC) No. 501/2004 of the European Parliament and of the Council on quarterly financial accounts for general government;
- Table 28 by Council Regulation (EC) No. 1222/2004 concerning the compilation and transmission of data on the quarterly government debt;
- Table 8' by Regulation (EC) No. 1161/2005 of the European Parliament and of the Council on the compilation of quarterly non-financial accounts by institutional sector.

- **Consistency with other policies and objectives of the Union**

The proposal of the revised programme has been drafted to be consistent with the objectives of the policies that use national accounts data, notably the Lisbon agenda and monetary policy.

2) Consultation of interested parties and impact assessment

- **Consultation of interested parties**

Consultation methods, main sectors targeted and general profile of respondents

The proposal for the revised programme is the result of an intensive discussion at technical level. Three Eurostat working groups were involved: the National Accounts, the Financial Accounts and the Regional Statistics Working Groups. Key users were consulted about their data needs. The proposal has also been extensively discussed in the Committee of Monetary, Financial and Balance of Payments Statistics and in the Statistical Programme Committee.

Summary of responses and how they have been taken into account

The proposal is the outcome of the discussion in the relevant fora and integrates the suggestions made by key users and producers.

- **Collection and use of expertise**

There was no need for external expertise.

- **Impact assessment**

No negative impact has been identified in connection to the proposed Regulation. Therefore, no specific impact assessment procedure has been carried out.

It is expected that, if adopted, the Regulation will improve the availability of national accounts data, leading eventually to the production of better quality statistics at European level and therefore have a positive, albeit indirect, impact on the economic and social spheres.

3) Legal elements of the proposal

- **Summary of the proposed action**

The proposal aims at revising the transmission programme of national accounts data as defined in Annex B of Regulation N. 2223/96 (the ESA95 Regulation).

- **Legal basis**

Article 285(1) of the Treaty establishing the European Community.

- **Subsidiarity principle**

The proposal falls under the exclusive competence of the Community. The subsidiarity principle therefore does not apply.

- **Proportionality principle**

The proposal complies with the proportionality principle for the following reason(s).

The proposed regulation amends Annex B of Council Regulation (EC) No 2223/96 (ESA95) with respect to the transmission of national accounts data. It applies the same principles of harmonisation and coherence for the transmission of national accounts data as the ESA95 Regulation and, furthermore, it incorporates new requirements expressed both from national producers and key users.

The revised transmission programme is part of the general international approach of harmonising national accounts. It fixes a common set of national accounts data to be collected and transmitted to the Commission in the framework of ESA95.

- **Choice of instruments**

Proposed instruments: regulation.

Other means would not be adequate for the following reason(s).

The regulation has general application, it is binding in its entirety and directly applicable in all Member States.

4) Budgetary implication

The proposal has no implication for the Community budget.

5) Additional information

- **European Economic Area**

The proposed act concerns an EEA matter and should therefore extend to the European Economic Area.

Proposal for a

REGULATION OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

amending Council Regulation (EC) No 2223/96 with respect to the transmission of national accounts data

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community, and in particular Article 285(1) thereof,

Having regard to the proposal from the Commission¹,

Having regard to the opinion of the European Central Bank²,

Acting in accordance with the procedure laid down in Article 251 of the Treaty³,

Whereas:

- (1) Council Regulation (EC) No 2223/96 of 25 June 1996 on the European system of national and regional accounts in the Community⁴ contains the reference framework of common standards, definitions, classifications and accounting rules for drawing up the accounts of the Member States for the statistical requirements of the Community, in order to obtain comparable results between Member States. The European System of Accounts, set up by that Regulation, is known as “ESA 95”.
- (2) For the conduct of monetary policy within the Economic and Monetary Union, for the effective coordination of economic policies and for the purposes of structural and macro-economic policies, a comprehensive set of comparable, pertinent and timely national accounts data is needed.
- (3) Regulation (EC) No 2223/96 provides in its Annex B for a set of tables of national accounts data to be transmitted for Community purposes within specified time limits. Furthermore, a number of different regulations provide that a range of additional data has to be transmitted to the Commission. Those regulations are the following: Regulation (EC) No 501/2004 of the European Parliament and of the Council of 10 March 2004 on quarterly financial accounts for general government⁵, Regulation

¹ OJ C , , p. .

² OJ C , , p. .

³ OJ C , , p. .

⁴ OJ L 310, 30.11.1996, p. 1; Regulation as last amended by Regulation (EC) No 1267/2003 of the European Parliament and of the Council (OJ L 180, 18.7.2003, p. 1).

(EC) No 1221/2002 of the European Parliament and of the Council of 10 June 2002 on quarterly non-financial accounts for general government⁶, Regulation (EC) No 1161/2005 of the European Parliament and of the Council of 6 July 2005 on the compilation of quarterly non-financial accounts by institutional sector⁷, Regulation (EC) No 1222/2004 of the Council of 28 June 2004 concerning the compilation and transmission of data on the quarterly government debt⁸ and Commission Regulation (EC) No 264/2000 of 3 February 2000 on the implementation of Council Regulation (EC) No 2223/96 with respect to short-term public finance statistics⁹. Together, all the tables and data provided for in all six Regulations constitute the complete transmission programme of national accounts data.

- (4) The transmission programme of national accounts data needs to be updated to take into account changing user needs and new policy priorities in the European Union.
- (5) The transmission programme of national accounts data has to take into consideration the fundamental political and statistical changes that have occurred in some countries during the reference periods of the programme.
- (6) The Economic and Financial Committee's Status Report on Information Requirements in the Economic and Monetary Union (EMU) of 25 May 2004, endorsed by the Council's Ecofin meeting on 2 June 2004, underlined the need to amend the transmission programme so as to comply with the requirements of the EMU Action Plan and the Lisbon strategy of the European Council.
- (7) The measures provided for in this Regulation are in accordance with the opinion of the Statistical Programme Committee (SPC) and of the Committee on Monetary, Financial and Balance of Payments Statistics (CMFB).

HAVE ADOPTED THIS REGULATION:

Article 1

Annex B to Regulation (EC) No 2223/96 is replaced by the text set out in the Annex to this Regulation.

Article 2

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.
