## DRAFT EUROPEAN PARLIAMENT LEGISLATIVE RESOLUTION

**on the proposal for a regulation of the European Parliament and of the Council amending Council Regulation (EC) No 2223/96 with respect to the transmission of national accounts data  
(COM(2005)0653 – C6-0438/2005 – 2005/0253(COD))**

**(Codecision procedure: first reading)**

*The European Parliament,*

- having regard to the Commission proposal to the European Parliament and the Council (COM(2005)0653)<sup>1</sup>,
  - having regard to Article 251(2) and Article 285(1) of the EC Treaty, pursuant to which the Commission submitted the proposal to Parliament (C6-0438/2005),
  - having regard to Rule 51 of its Rules of Procedure,
  - having regard to the report of the Committee on Economic and Monetary Affairs (A6-0000/2006),
1. Approves the Commission proposal as amended;
  2. Calls on the Commission to refer the matter to Parliament again if it intends to amend the proposal substantially or replace it with another text;
  3. Instructs its President to forward its position to the Council and Commission.

### Amendment 1 RECITAL 3

(3) Regulation (EC) No 2223/96 provides in its Annex B for a set of tables of national accounts data to be transmitted for Community purposes within specified time limits. Furthermore, a number of different regulations provide that a range of additional data has to be transmitted to the Commission. Those regulations are the following: Regulation (EC) No 501/2004 of the European Parliament and of the Council of 10 March 2004 on quarterly

(3) Regulation (EC) No 2223/96 provides in its Annex B for a set of tables of national accounts data to be transmitted for Community purposes within specified time limits. Furthermore, a number of different regulations provide that a range of additional data has to be transmitted to the Commission. Those regulations are the following: Regulation (EC) No 501/2004 of the European Parliament and of the Council of 10 March 2004 on quarterly

financial accounts for general government, Regulation (EC) No 1221/2002 of the European Parliament and of the Council of 10 June 2002 on quarterly non-financial accounts for general government, Regulation (EC) No 1161/2005 of the European Parliament and of the Council of 6 July 2005 on the compilation of quarterly non-financial accounts by institutional sector, Regulation (EC) No 1222/2004 of the Council of 28 June 2004 concerning the compilation and transmission of data on the quarterly government debt and Commission Regulation (EC) No 264/2000 of 3 February 2000 on the implementation of Council Regulation (EC) No 2223/96 with respect to short-term public finance statistics. **Together**, all the tables and data provided for in all six Regulations constitute the complete transmission programme of national accounts data.

financial accounts for general government, Regulation (EC) No 1221/2002 of the European Parliament and of the Council of 10 June 2002 on quarterly non-financial accounts for general government, Regulation (EC) No 1161/2005 of the European Parliament and of the Council of 6 July 2005 on the compilation of quarterly non-financial accounts by institutional sector, Regulation (EC) No 1222/2004 of the Council of 28 June 2004 concerning the compilation and transmission of data on the quarterly government debt and Commission Regulation (EC) No 264/2000 of 3 February 2000 on the implementation of Council Regulation (EC) No 2223/96 with respect to short-term public finance statistics. ***This Regulation does not cover the data included in the five regulations referred to in the second sentence. However, together***, all the tables and data provided for in all six Regulations ***referred to in this Recital*** constitute the complete transmission programme of national accounts data.

#### *Justification*

*This explanation is made for the sake of clarity.*

#### Amendment 2 RECITAL 6 A (new)

***(6a) Since the objectives of this Regulation, namely the creation of common statistical standards that permit the production of harmonised national account data, cannot be sufficiently achieved by the Member States and can therefore be better achieved at Community level, the Community may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty. In accordance with the principle of proportionality, as set out in that Article, this Regulation does***

***not go beyond what is necessary in order to achieve those objectives.***

*Justification*

*A recital on subsidiarity is added based on the standard formulation presented in section 10.15.4 of the Joint Practical Guide of the European Parliament, the Council and the Commission.*

Amendment 3

ARTICLE 1 A (new)

Article 3, paragraph 1 (Regulation (EC) No 2223/96

***(1a) Article 3(1) of Regulation (EC) No 2223/96 shall be replaced by the following:***

***“1. The Member States shall transmit to the Commission (Eurostat) the accounts and tables set out in Annex B within the time limits specified for each table, taking into account the derogations set out in that Annex.”***

*Justification*

*As the provision of Article 3, paragraph 1, subparagraph 2 and 3, concern the present regulation (EC) No 2223/96, they are not in concordance with the proposed amendments and should therefore be removed.*

(x) In real terms.

A6<sup>+</sup> NACE A6 including “of which manufacturing”. Backward data for “manufacturing” starting in 1990.

1) If no breakdown is indicated, that means total economy.

2) Breakdown by durability *for annual accounts*: durable goods, semi-durable goods, non-durable goods, services.

***Breakdown by durability for quarterly accounts: durable goods and others.***

Backward data starting in 1990.

3) On a voluntary basis.

4) A6<sup>+</sup> only for total employment, self employed and employees in resident production units.

5) ***Data (current and constant prices) to be provided for reference periods after 2006 must reflect the compositions of EU and Economic and Monetary Union as at the end of the period reported in the table. Only members of EMU during the reference period are required to provide a split of EMU – for non-members this split is voluntary.***

***Backward data (aggregates in current prices, reference periods up to and including 2006):***

a) ***To be provided by all countries that, in 2006, were members of the EU but not members of the EMU:***

***2002-2006: total / EU25 / Institutions of the EU (voluntary) / third countries and international organisations***

## **EXPLANATORY STATEMENT**

In December 2005 the Commission submitted its proposal for a regulation amending Council Regulation (EC) No 2223/96 with respect to the transmission of national accounts data. The proposal seeks to replace Annex B to the ESA95 Regulation, which contains most of the tables making up the transmission programme, the aim being to adapt it to take account of new economic circumstances, essentially the Lisbon Strategy and EMU.

Some tables and data will continue to be governed by separate regulations. This concerns quarterly financial and non-financial accounts for general government, non-financial accounts by institutional sector, quarterly government debt and short-term statistics on government finance. All of the tables and data concerned are laid down in six regulations which together form the complete programme for the transmission of national accounts data.

The changes proposed refer, firstly, to the tables updating the data required by users and the determining of reference periods, and secondly, to the list of derogations for each Member State.

The Commission proposal only includes derogations for the new Member States (except Cyprus and Malta) and Germany, from which data were not requested for before 1995 and 1991 (the Federal Republic of Germany before unification), respectively. This draft report puts forward a list of exceptions for various macro-economic sizes and periods extended to the rest of the Member States, which are justified to give the national statistical institutes time to adjust to the new rules and conditions.
