Petition No 0223/2022 by Olena Vedenina (Ukrainian) on the creation of a humanitarian corridor for European citizens in Ukraine

The petitioner calls for the creation of a humanitarian corridor for all European citizens in Ukraine and the provision of means of transport to enable safe return. Many women and children cannot move safely without facing the risk of being killed or injured. It is currently not possible to move away from the war zones in the east of Ukraine and the petitioner calls for the evacuation of those people who are alone and in serious danger.
