Secretariat of  
The International Conference  
In Support of the Palestinian Intifada

*the name of God*  
Islamic Republic of IRAN

**Dear Member of Parliament Udo Voigt, MEP**

It is our pleasure to invite you to attend the 6<sup>th</sup> International Conference of Independent Thinkers and Artists (New Horizon) in Mashhad. The conference will host academics, politicians, authors, journalists, activists, filmmakers, and media commentators from around the world to discuss different viewpoints and show worldwide solidarity with PALESTINIAN oppressed people. The theme of this year's conference is "JERUSALEM/AL-QUDS, THE ETERNAL CAPITAL OF PALESTINE" which is organized by New Horizon Secretariat with cooperation of IRIB World Service (including PressTV), as well as Secretariat of 6<sup>th</sup> International Conference in Support of the Palestinian Intifada, and will take place on May 12<sup>th</sup> through the 18<sup>th</sup> – 2018.

So to fight hatred, conflicts and destruction we hope you will join us at this event, and be among the voices of love, truth, peace, and hope. Together we can create a new world and a new age of freedom for all.

**Mission Statement:**

The USA has recognized all of Jerusalem as the capital of the Israeli entity, contrary to years of precedent by the UN as far back as 1947 in Resolution 181--that the Eternal City would have an international status. Its declaration concerning Jerusalem was opposed by most of the members of the world body. Donald Trump's announcement of Jerusalem as the capital of Israel confirms a long-held suspicion among many observers: The US no longer appears to have a serious interest in resolving the Palestinian-Israeli impasse, but has now publicly declared its allegiance to the Zionist entity. Flaunting its own previous position on Jerusalem, the US can no longer be counted upon to uphold its past international commitments. Over the years, most countries have come to see West Jerusalem as being under Zionist jurisdiction, with East Jerusalem being under the jurisdiction of the Palestinian authority, to make it the capital of both within the framework of a viable two-state solution. The task of this conference will be to examine options that could be formally presented to the UN for consideration to compel the US to clarify its position on the status of East Jerusalem and move toward a solution of this complex issue, widely regarded as the most prominent human rights problem of our time.

## New Horizon Int'l Conference on Quds Kicks Off in Mashhad

TEHRAN (Tasnim) – The 6th edition of the New Horizon Conference opened in the northeastern Iranian city of Mashhad with European and American analysts and figures in attendance.

**May, 12, 2018 - 14:00 | Society/Culture |**

Titled "Quds, Permanent Capital of Palestine", the international conference began at Al-Ghadir Hotel in the holy city on Friday morning.

More than 50 senior American, European, Asian and Russian scholars and political commentators are attending the two-day event.

The gathering focuses on the latest developments in the Middle East and the world, particularly US President Donald Trump's plan to move his country's embassy from Tel Aviv to Jerusalem (al-Quds).

On December 6, Trump defied global warnings and said Washington formally recognized al-Quds as the "capital" of Israel and would begin the process of moving its embassy to the occupied city later this month, breaking with decades of American policy.
