

The Honorable  
**Rob Roos**  
Member of the European Parliament  
The Netherlands

Budapest, 3 February, 2023

*Dear Representative Roos,*

*Building on the tremendous success of last year's first Conservative Political Action Conference on European soil, the Center for Fundamental Rights is delighted to announce that **CPAC Hungary will return to Budapest on May 4-5, 2023, with the motto "United We Stand"**.*

***We have the great privilege of inviting you to speak at the conference.** Your tireless efforts for the conservative cause over many years and extraordinary accomplishments, mean that your invaluable contribution to this year's event would ensure the continued success of CPAC Hungary.*

*In 2022, CPAC Hungary was a giant leap forward in the international cooperation of conservative forces. Under the banner of "God, Homeland, Family," 1500 attendees, including 200 friends from all over the world, focused on the globalized left's assault on the values that made our societies the greatest, most prosperous endeavor in human history.*

*CPAC Hungary 2022 generated a great impact. The Right praised Prime Minister Orbán's 12-point recipe for conservative success, and we invited him to give the Hungarian keynote speech again. The progressives were hysterical in denouncing the event - a glaring sign that we are on the right track.*

*This year, the motto of CPAC Hungary - "United We Stand" - will epitomize our goal: to realize the nightmare of the liberals, the international cooperation of national forces. We will work to broaden and deepen our international alliance.*

*We hope you will join us for the Budapest leg of this exciting journey.*

*Warmest regards,*

Miklós SZÁNTHÓ

Director General

Center for Fundamental Rights
