

## MEPs to quiz Mr Hogan on removal of countries from tax haven blacklist

**MEPs will review plans to remove eight countries from an EU tax haven blacklist, in a debate on Wednesday evening.**

MEPs will hear from the EU Commission and Council on their decision to remove several countries -- including Panama and Tunisia -- from an EU blacklist of tax havens, little more than a month after they were first listed.

You can watch the plenary debate via [EP Live](#), and [EbS+](#).

### Background

In January, the Commission announced that it would move [eight](#) of the [original 17 countries](#) from its black list to a “grey list”, drawing further criticism from those who are already sceptical about the lack of sanctions or other financial penalties against countries on the list.
