<b>01:15</b>	(tentative) update EP results projection based on additional incoming results data

## Glossary

**National estimate:** Provided by Kantar for the European Parliament based on available exit polls, estimates or similar non-official data published in a Member State.

**Pre-election voting intentions:** Latest voting intention survey(s) published in a Member State ahead of the elections.

**EP aggregation:** Aggregation of currently available non-official estimate data and pre-election voting intentions in the form of one hemicycle graph.

**EP results projection:** Projection of the results of the European elections 2019, based where available on official results (partial/full, provisional/final).
